### Art & Design

During this half term, children will be developing their drawing and painting skills. They will explore different ways of creating texture and pattern with mark making and will explore colour mixing with paint.

### Computing

#### iProgram (1)

In this unit children will continue to build on the learning they have done to develop computational thinking and creating programs with Scratch

**E-safety** – recognising what behaviour might upset people online.

### Design & Technology

Throughout this term children will be combining their learning about healthy lifestyles with investigating foods that make healthy snacks. They will explore a range of techniques for preparing simple healthy snacks.

### Geography

Children will focus on a developing their geographical skills this half term with a particular emphasis on fieldwork enquiry. They will use fieldwork to observe, record and present information about the local environment including sketch maps.

### History

Children will focus on a geography topic this half term before moving on to a history topic next half term. During their geography unit they may think about how a place has changed over time and what the reasons for the change might be.

### Languages

This half term, children will hear and learn the vocabulary they need to talk about different parts of the body. As well as naming body parts they will be able to explain that a body part hurts.

### Music

Using some of their favourite animated films as inspiration, children will be exploring the important role that music plays in creating a successful animated movie that everyone will love for its music and sound effects.

### PE & Sport

In this unit, pupils will develop basic running, jumping and throwing techniques. They are set challenges for distance and time that involve using different styles and combinations of running, jumping and throwing.

### PSHE

#### Relationships

- Jealousy
- Love and loss
- Memories of loved ones
- Getting on & falling out
- Girlfriends and boyfriends
- Showing appreciation to people and animals

### Religious Education

#### Islam & Zoroastrianism

*What role do places of worship have in communities?*

Children will think about places of worship as hubs in their local community.

### Science

This half term, children will learn about living things and their habitats. They will learn about how living things can be grouped and classified using classification keys. They will identify living things local and wider environments.

### Homework

Each week children will be given some English activities to complete at home, which will include spellings. Maths activities will be set through MyMaths. In addition, children should complete daily reading and regularly use Times Tables Rock Stars.
