- Multiplying 2, 3 and 4-digit numbers by 1 and 2-digits
- Dividing 2, 3 and 4-digit numbers by 1-digit (with remainders)
- Solving problems with efficient written methods

Fractions

- Multiplying fractions and integers
- Calculating fractions of an amount
- Find the whole

Decimals and Percentages

- Decimals up to 2 decimal places
- Equivalent fractions and decimals

Art & Design

With links to their learning about Ancient Greece, children will explore the symbolism of the images found of pottery from the period, combining this with creating collage images.

Computing

iModel – children will use software to create virtual, 3D representations of structures and think about how this might be used in real life.
E-safety – selecting what information to share online.

Design & Technology

Children will focus on an art and design theme this half term before moving onto a design and technology project next half term.

Geography

Children will be exploring the features of the globe and how lines of longitude and latitude are important for navigation and understanding why the climate varies around different parts of the globe.

History

Children will focus on a geography topic at the beginning of this half term. Children will then begin to explore the Ancient Greeks towards the end of this half term.

Languages

Children will continue to develop their conversational French vocabulary and will be focusing on being able to talk about their favourite hobbies and past times with their friends.

Music

Having listened to some different examples of rap music, children will then work to compose and perform their own rap pieces either solo or as part of a small group.

PE & Sport

During indoor sessions, children will be combining different circuits of physical activity, which promote general coordination and fitness.
In outdoor sessions, children will work in teams and will use various skills when playing dodgeball.

PSHE

Dreams and Goals

- Future dreams
- The importance of money
- Jobs and careers
- Dream job and how to get there
- Goals in different cultures
- Supporting others (charity)
- Motivation

Religious Education

Hinduism

Children will be learning about how Hindus believe that Brahman is everywhere and in everything and will be exploring the idea of Karma and the importance of doing good deeds.

Science

Children will continue to develop their understanding of lifecycles of plants and animals. They will explore the developmental stages of a range of living things, comparing and contrasting their development

Homework

Each week children will be given some English activities to complete at home, which will include spellings. Maths activities will be set through MyMaths. In addition, children should complete daily reading and regularly use Times Tables Rock Stars.
