Art & Design

During this half term, children will explore the work of the artist Georgia O’Keeffe, critically evaluating her work and recreating some of the effects she used with paint and different tools.

Computing

iProgram (1)

Throughout this unit children will continue to develop computational thinking and will focus on programming animations with Scratch

E-safety – to know how to get help when online bullying occurs.

Design & Technology

Throughout this term children will be exploring textile design. They will be looking at how they can combine and join different fabric shapes to make a useful product. Their designs will be based on examples they have evaluated.

Geography

Children will be looking a aspects of physical geography this half term with a particular focus on mountains and rivers. They will understand the physical processes linked to mountains and rivers and consider their impact on people.

History

Children will focus on a geography topic this half term before moving on to a history topic next half term. During their geography unit they may think about how a place has changed over time and what the reasons for the change might be.

Languages

This half term, children will hear and learn the vocabulary they need to talk about the names of the seasons, seasonal activities and the date and when their birthday is.

Music

Using elements of pop music that children are familiar with, children will think about composing and performing their own pop hits, that are made up of several parts, using a range of tuned and untuned instruments.

PE & Sport

During indoor sessions children will develop their competencies in racket skills when playing Tennis. Outside, children develop teamwork skills through completion of a number of outdoor, adventurous challenges.

PSHE

Relationships

- Self-recognition and self-worth
- Building self-esteem
- Safe online communities
- Online gaming
- Reducing screen time
- Dangers of online grooming
- SMARRT internet safety

Religious Education

Baha’i and Islam

How do faiths define themselves?

Children will consider the different ways in which faith groups define themselves by comparing and contrasting two local religious communities.

Science

This half term, children will investigate different forces that are in action around them. They will be focusing on the forces of gravity and friction and will think about air and water resistance. They will use practical experiments to learn more.

Homework

Each week children will be given some English activities to complete at home, which will include spellings. Maths activities will be set through Mathematics. In addition, children should complete daily reading and regularly use Times Tables Rock Stars.
