- Draw lines and angles accurately
- Angles on a straight line and around a point
- Calculate angles
- Vertically opposite angles
- Angles in shapes
- Draw shapes and nets of 3D shapes

### Art & Design

During this half term, children will develop their understanding of the weaving process throughout history and they will look at different woven fabrics from around the world to inspire their own creations, made using a simple loom.

### Computing

#### iApp (1)

In this unit children will explore the exciting world of app development and will be designing and developing apps with Bitsbox

**E-safety** – to know how to capture examples of online bullying.

### Design & Technology

During this term, children will continue exploring the design process from the market research and product development stage right through to production. They will combine aesthetic design with basic electrical circuits to create a nightlight for their target audience.

### Geography

The focus this half term is on Fair Trade. Children will be learning about different places in the world that the foods and goods they use come from and how they, as consumers, can help to make sure that the producers in those countries get a fair

### History

Children will focus on a geography topic this half term before moving on to a history topic next half term. During their geography unit they may think about how a place has changed over time and what the reasons for the change might be.

### Languages

This half term, children will hear and learn the vocabulary they need to talk about the future. They will use the future tense and use adjectives to compare people. They will also use more ways to describe how they are feeling.

### Music

In this unit children will learn what it takes to be successful in the pop music world. They will think about the elements of successful pop hits before combining these to compose their very own chart topper.

### PE & Sport

Inside, children will develop their racket skills when playing tennis, learning specific skills such as a forehand, backhand, volley and underarm serve. Outside, athletics challenges for distance and time will be set.

### PSHE

#### Relationships

- Mental health
- Identifying mental health worries and sources of support
- Love and loss
- Managing feelings
- Power and control
- Assertiveness
- Technology safety

### Religious Education

#### Sikhism & Humanism

*Who do we look to for inspiration and why?*

Children will consider what the characteristics of an inspirational person would be to them.

### Science

This half term, children will be looking at the human body as a living organism and focusing on some of the vital systems such as the respiratory and the circulatory systems. They will consider the importance of a healthy lifestyle.

### Homework

Each week children will be given some English activities to complete at home, which will include spellings. Maths activities will be set through Mathematics. In addition, children should complete daily reading and regularly use Times Tables Rock Stars.
